

The Wheatley School Class Of 1963

Have you received a COVID-19 vaccination?	Two vaccinations
What kind of setting?	Other <i>County</i>
How did you sign up?	Via a Website
Was the process pretty efficient or chaotic?	Efficient
How long did you wait in line, once you arrived at your appointment?	15 minutes or less
Please describe your experience for your classmates, if you wish to do so.	<p>This experience has been a real game changer in my life. As a retired nurse, and founder /leader of a large retired nurses group, it was difficult to watch the active nurses working their “fingers to the bone” during this time. Thinking that they could use the help... and we could provide the support, I set out to change the licensing laws. After a heart felt battle, I was able to accomplish my goal enabling any previously held license, regardless of state of origin, to become activated for the purpose of vaccinating. This subsequently set the stage for other states to follow suit. About 60 of us have been out in the greater Tucson area, vaccinating at various sites and in home visits. Wearing our Rosie the Riveter style shirts we have become a force admired by many and especially in our own lives. It has been so incredibly fulfilling to have awakened our calling, and to once again care for our community.</p>
